

NAPLES PRIME

ORIGINS CONNECTED

Website: <http://www.naplesprimeci.com/>

Who we are?

- We are an **international trading company** specialized in the **export of gold, silver and platinum open to new customers.**
- Duly certified by the Colombian government and **pioneers** in the **prevention of risks associated to the supply chain.**

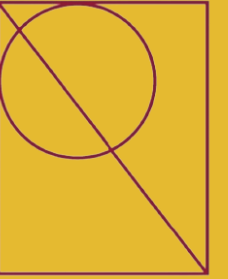

Our offices and laboratories are located in the cities of Bogotá and Medellín.

We are a Fully Compliant Colombian Gold Trader

- Our goal is to show that **artisanal mining** can be done with entire **legality**.
- We work closely with **artisanal miners**, and lead **mining formalization programs**.
- Our basis are **strict compliance** and **traceability process of funds and material origin**.

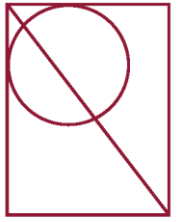

1. Our Experience in Trading Operations

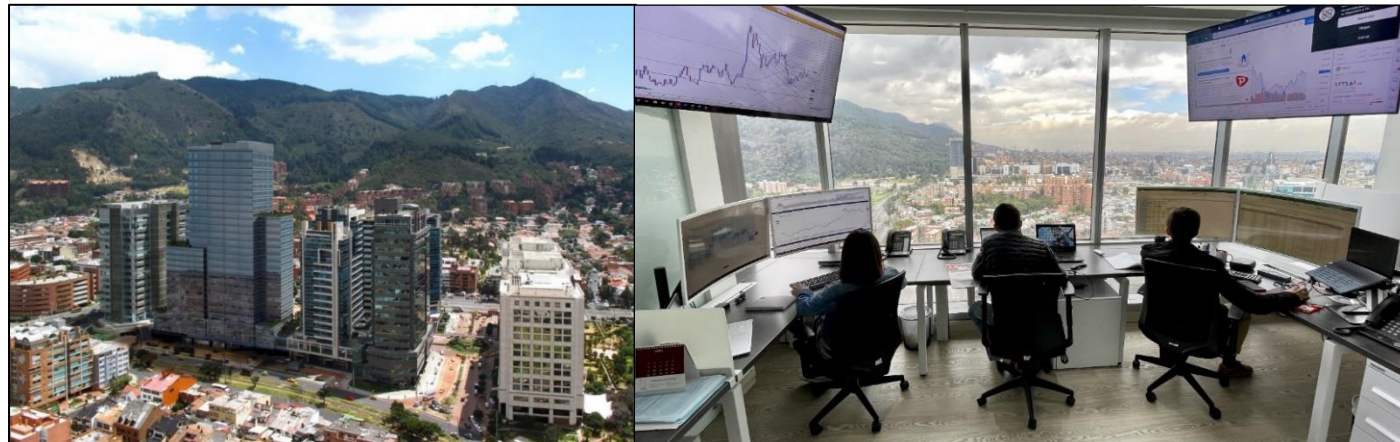

Since 2017

Bogotá, Col → Medellín, Col → Naples, USA

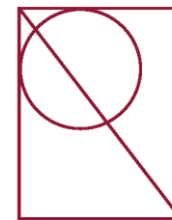

Achievements

- **Monthly average of 200 kg of gold sold and exported** to our customers in the United States and Europe.
- In 2020 we made 39 exports equivalent to more than **2 tons of gold** valued in over **USD 100 M.**
- **NAPLES PRIME is one of the 10 biggest Colombian export companies to the United States.**

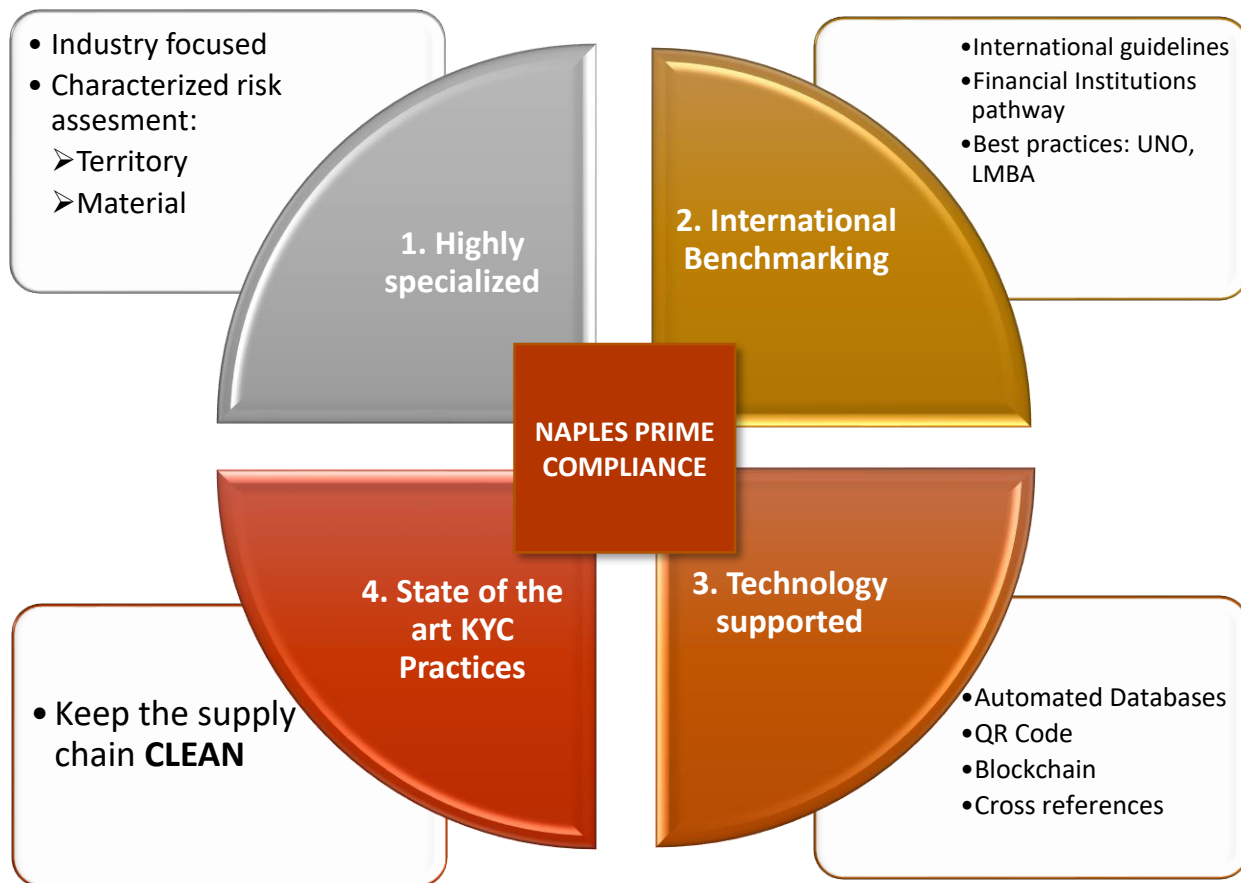

Bogotá City

Bogotá, Col → Medellín, Col → Naples, USA

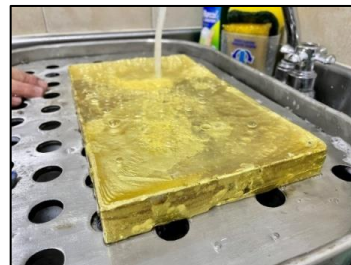

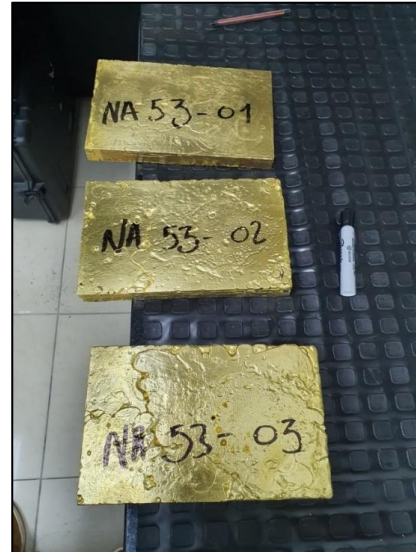

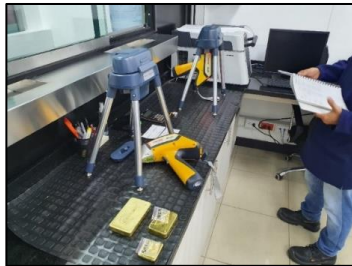

Our Compliance Policy

Bogotá, Col → Medellín, Col → Naples, USA

Logistic Process

- Verified gold is received in small bars from our suppliers.
- Bars are melted into 20 kg ingots 2 cm thick for spectrometer analysis.
- Ingots are exported in raw gold batches of 80 to 100 kg to be refined in the U.S. and Europe.

- Pricing.
- Sales terms and conditions.
- Compliance requirements (KYC).
- Availability of material.
- Shipping options.

Sample: Export #53 made on March 2021: 97.49 kg of gold, each bar is packed in a nylon zip bag with a QR code printed in the front.

Bogotá, Col → Medellín, Col → Naples, USA

2. Our Social Projects

Since 2019

Bogotá, Col → Medellín, Col → Naples, USA

Our Social Projects In Colombia

We focus on:

- **Formalization of artisanal miners from different parts of the country.**
- *Ensuring miners get fair prices for the gold they recover.*
- **Promoting green mining practices.**
- *Support local initiatives related to economic grow and diversification.*
- *Environmentally friendly mining practices.*

Women Artisanal Miners

Caracolí, Antioquia

CARACOLI'S PROJECT

Currently, we are working on:

- Formalization of around **200 women artisanal miners**.
- Establishing a gold purchase site in Caracolí.
- Supporting women's entrepreneurship initiatives in: *plant nursery, jewelry and recycling*.
- *Improving material recovery technics*

In collaboration with:

Embera-Katío Community

Murri, Antioquia

ASOMINO PROJECT

In 2019, Naples Prime was invited by the Antioquia Secretary of Mines to enter in a formalization process of *artisanal miners* from the *Embera Katío* indigenous community in Murri, Antioquia.

- We contributed to the opening of a **gold purchasing center**.
- Currently, formalized miners obtain **90%** of the gold market price instead of the **40%** they used to.
- **Naples Prime, Italtrezi** and the Government of Antioquia delivered **50 steel gutters** to the community to increase gold productivity and avoid the use of mercury.
- Since the project started, the association (ASOMINO) has formalized more than **1,500 indigenous miners**.

In collaboration with:

ASOMINO
Asociación de Mineros Indígenas de Occidente

GOBERNACIÓN DE ANTIOQUIA
SECRETARÍA DE MINAS

ITALPREZIOSI[®]
Precious Metals Refining and Trading

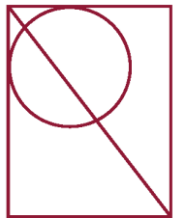

Afrodescendant Communities

Timbiquí, Cauca

During this project we contributed to the formalization of around **200 artisanal miners**.

- Now they are part of the local association **AURUM – TIMBIQUÍ** and obtain fair prices for their gold.
- Work is being done on the formalization on assigned mining areas in order to increase production capacity.

**NAPIES
PRIME**

Puinave Community

Inírida, Guanía

INÍRIDA'S PROJECT

- Currently, we are working with the ***Puinave indigenous community (Caño Vocol)*** to replicate formalization processes.
- We are also contributing to the technical and environmental studies for their recently approved ***indigenous mining area***.
- An ***ARES (Special Reserve Area)*** assignation is currently in study by the government which will legalize gold production in the area.

Economic Benefits for Communities

- ✓ Support the set up of formal **gold purchase sites** where artisanal miners can get a **fair price** for the gold they extract. Promote cooperative practices to benefit the community.
- ✓ Help local communities receive **royalties** from legal gold trading to be used for social investment, such as hospital, schools, and infrastructure.
- ✓ We also support *local alternative initiatives* to mining so that communities can **diversify** their economy.

Social and Environmental Impacts

- We contribute to the use of **clean gold extraction techniques** and train artisanal miners in the use of **mercury-free recovery systems**.
- We promote **inclusion** and **cooperation** within the mining communities.

JOIN OUR SOCIAL PROJECTS

And contribute to the improvement of the living conditions of artisanal miners.

3. Investment Opportunities

Colombian Mining Projects

Bogotá, Col → Medellín, Col → Naples, USA

Acquisition of Mining Titles in Colombia

- We help our clients **obtain mining titles** with **verified social and economic potential**, *environmental processes, legal and professional advice.*
- Our team is composed by **geologists, mining engineers, mining lawyers**, and **compliance experts.**

How de we do it?

1. **Filter** projects by *location, access* and *public order conditions*.
2. Strict **compliance/legal assessment** and **licenses verification**.
3. **Verify** the **compliance** of the **mining projects** with the **regulatory framework**.
4. **Visit mining projects** and take **sample** of mineral deposits at certified labs.
5. **Perform geochemical analysis**.
6. **Select and promote** projects with the best economic potential.

Our Mining Portfolio:

We offer **exploration** and **exploitation** projects, which includes:

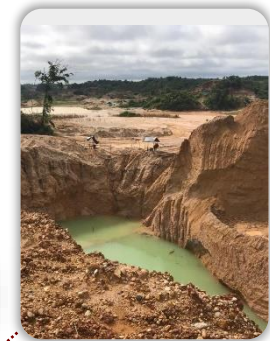

- Alluvial Gold and Platinum
- Epithermal Gold and Silver
- Copper and Gold Porphyries.

Bogotá, Col → Medellín, Col → Naples, USA

Cerro Oro Project
Epithermal Gold-Silver
Exploration and Exploitation

Simití Project

Palmitas Project
Epithermal Gold
Exploitation

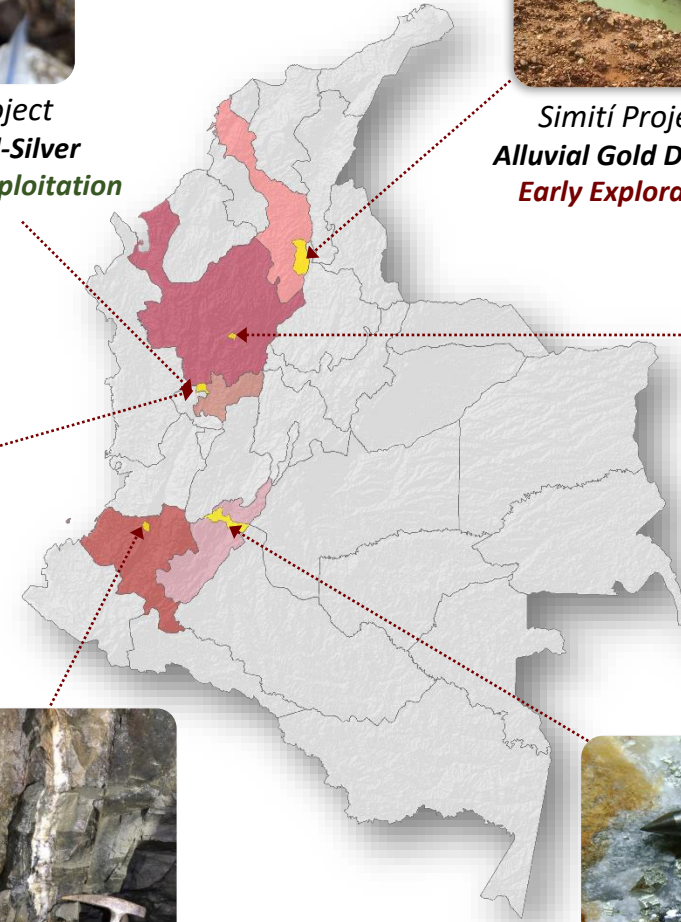

Concepción Project
Epithermal Gold
Exploration

Suárez Project
Epithermal Gold
Exploitation

San Luis Project
Porphyry Gold-Copper
Exploration

**NAPLES
PRIME**

Gold: Suárez Project

**NAPLES
PRIME**

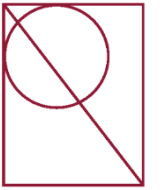

Exploitation Stage:

- **38 Hectares**
- Located in Suárez, Cauca.
- Good access and security.
- All permits available.
- **Epithermal Gold Deposit.**

Bogotá, Col → Medellín, Col → Naples, USA

Gold: Suárez Project

NAPES
PRIME

- 3 small-scale underground mines developed, currently inactive.
- Verified Au grades up to **24,5 g/ton**

INVESTMENT REQUIRED:

- 3 million USD
- To adapt existing tunnels, adjust recovery plant, and re-activate operation.
- Projected production: **25 kg/year**

Gold: Cerro Oro Project

Exploitation and Exploration Stage

- **711 Hectares**
- Located in Riosucio, Caldas
- High Mining tradition area.
- Excellent access and security.
- **1 formalized mine** in exploitation phase.

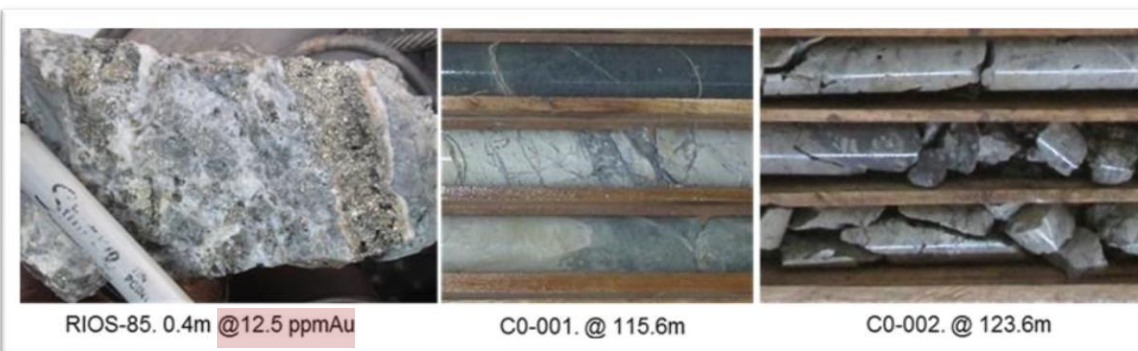

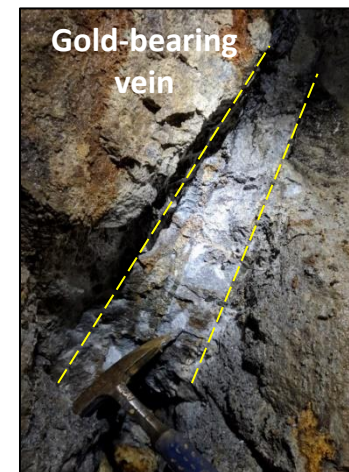

Gold: Cerro Oro Project

Ephitermal Au- Ag Deposit.

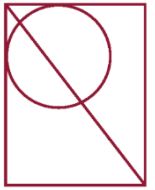

- ✓ Tested Au grades up to **21,1 g/ton**

INVESTMENT REQUIRED:

- 2,5 million USD
- To finish licensing studies, build 25 tpd recovery plant and start operation in 1 identified target.
- Projected production: **30 kg/year**

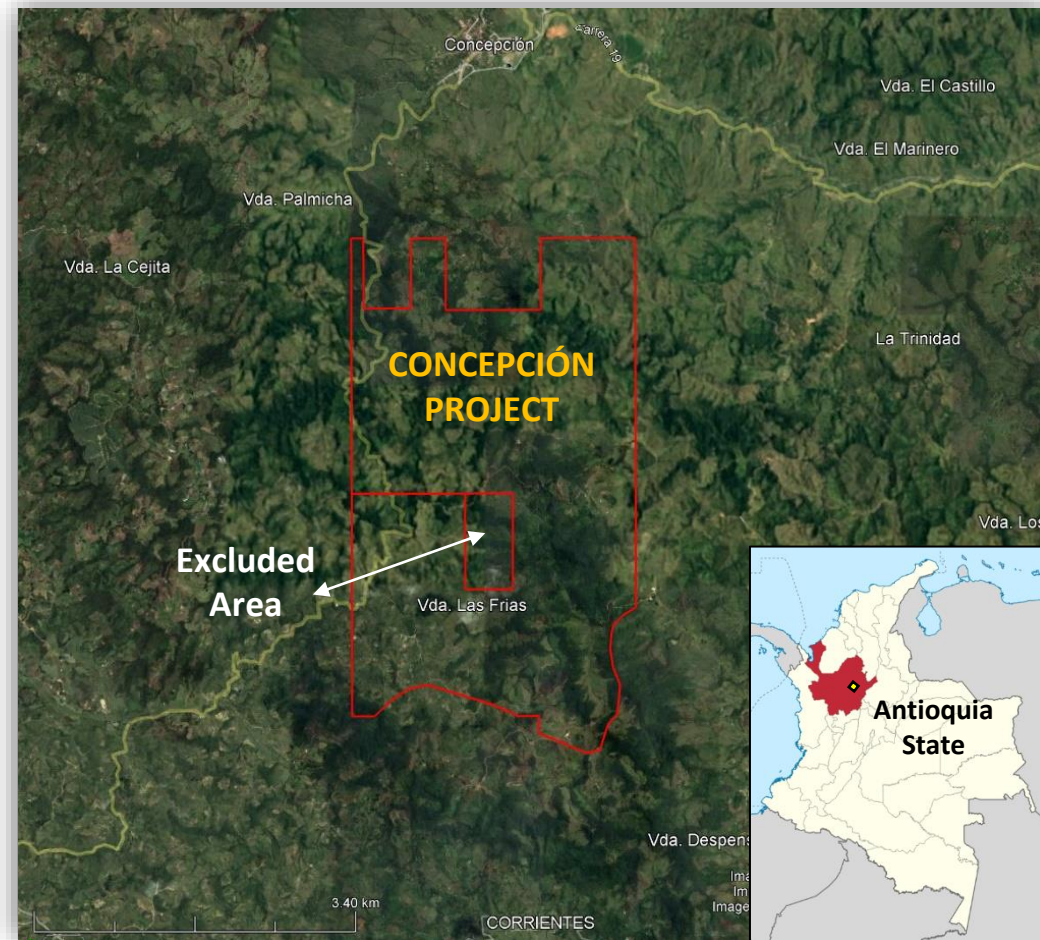

Gold: Concepción Project

**NAPIES
PRIME**

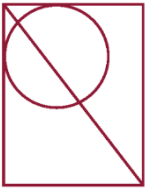

Exploration Stage: Drilling

- **1309 Hectares**
- Located in Concepción, Antioquia.
- Excellent access and security.
- Initial drilling program: 600 meters to date.
- **Epithermal Gold Deposit – High grade.**

Bogotá, Col → Medellín, Col → Naples, USA

Gold: Concepción Project

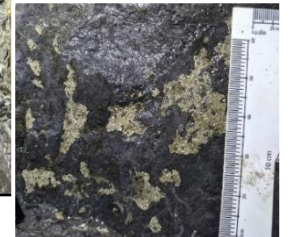

NAPLES
PRIME

- **Churumbelos Mine:** underground operation for exploration.
- Verified Au grades up to **119 g/ton**

INVESTMENT REQUIRED:

- 4 million USD
- To finish exploration, build 50 tpd recovery plant and start operation.
- Projected production: **50 kg/year**

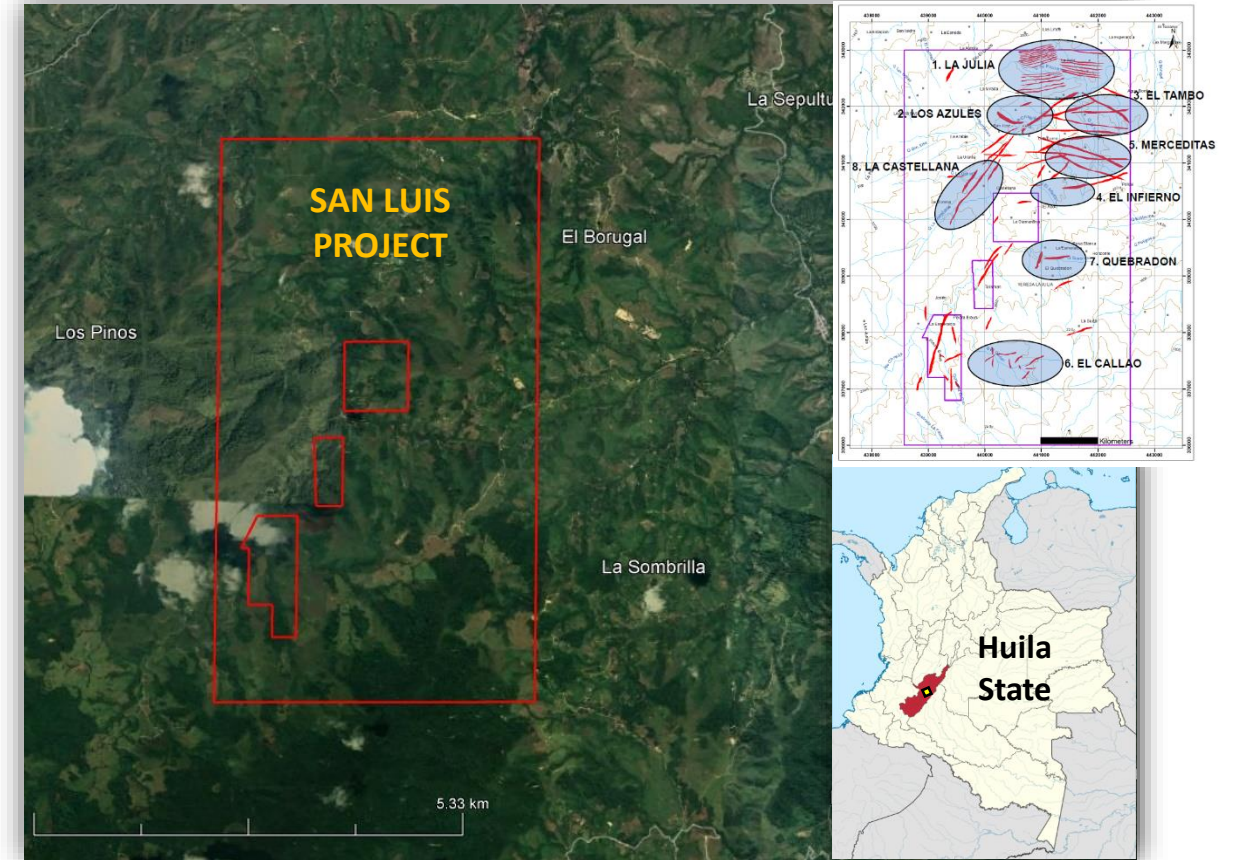

Copper & Gold: San Luis Project

NAPLES
PRIME

Exploration Stage: Drilling

- **2623 Hectares**
- Located in San Luis, Huila.
- Optimal access and security.
- **Epithermal** and **Potential Porphyry Au-Cu-Mo Deposit.**
- **8 targets identified.** Early geological estimates **2 million Oz Au**

Bogotá, Col → Medellín, Col → Naples, USA

Copper & Gold: San Luis Project

- 27 mineralized structures already identified.
- High grade zones: **Au 623 g/t**, **Ag 127 g/t**,
Cu 4620 g/t, **Mo 1615 g/t**
- Average Au grade: **8 g/ton**

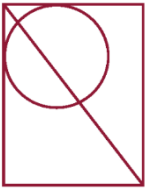

INVESTMENT REQUIRED:

➤ 5 million USD

- To finish licensing process, continue exploration and value creation.

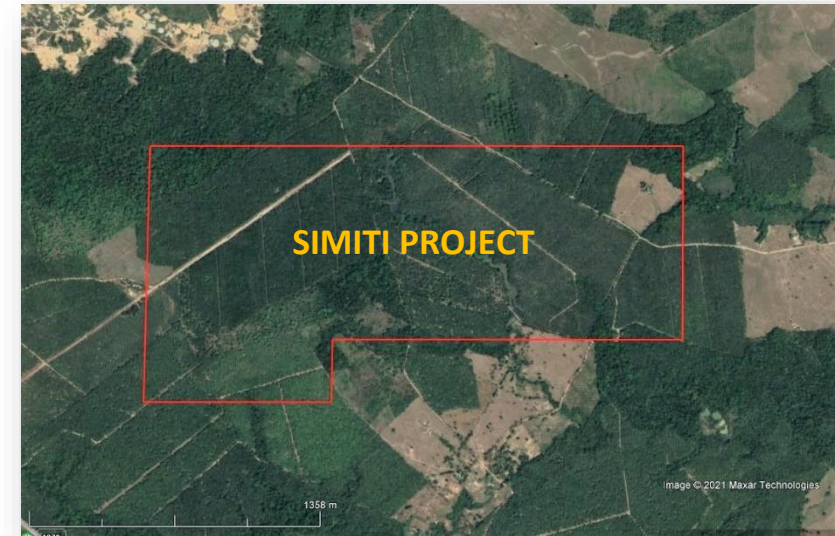

Gold: Simití Project

NAPLES
PRIME

Early Exploration Stage

- **255,63 Hectares**
- Located in Simití, Bolívar.
- Direct correlation with surrounding artisanal mining.
- **Alluvial Gold Deposit.**

INVESTMENT REQUIRED:

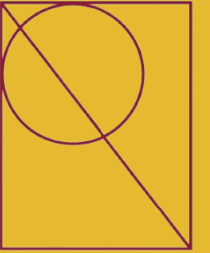

- **1,5 million USD**

To finish licensing processes, set a gravitational recovery plant and start pilot exploitation.

Bogotá, Col → Medellín, Col → Naples, USA
